APRIL 2 - JULY 11, 2018

Exam Dates: October 15 - November 4, 2018

PRESIDENT'S WELCOME

It is my pleasure to welcome you to San Diego and to The ASAM 49th Annual Conference - *Innovations in Addiction Medicine and Science*!

The conference features the latest innovations in science and highlights best clinical practices in the field of addiction medicine. You'll engage with cutting-edge speakers, renowned practice improvement experts, leading researchers, and policymakers, as they explore topic areas vital for addressing the full spectrum of addiction care: prevention, treatment, remission, and recovery.

The 2018 program includes an array of robust education offerings including two exciting pre-conference offerings, a sold-out off-site learning experience, seven concurrent sessions and 60 scientific posters. You don't want to miss three exciting sessions with distinguished speakers, the Opening Plenary, the National Perspectives and Plenary Policy Plenary. Read more about these on pages 22, 25 and 27.

The Exhibit Hall is an opportunity to network with colleagues and exhibitors, enjoy refreshments, and view innovative healthcare products, services, and resources. I hope you plan to attend the Welcome Networking Reception, the ASAM Bayside Beach Party, the Annual Awards Luncheon and many other fun-filled events and activities. Finally, ASAM members are encouraged to attend the ASAM Annual Member Breakfast Business Meeting, where you will have an opportunity to hear the latest update on the organization and meet the candidates for President-elect in the upcoming election.

The Annual Conference Program Committee, Presenters, ASAM Staff, Sponsors, and Exhibitors, have dedicated months of effort to make sure every course, workshop, symposium and poster is interactive, informative and educational. I am confident you will have an outstanding learning experience. Be sure to share your experiences through the social media hashtag #ASAM2018.

Enjoy the conference!

Kelly J. Clark, MD, MBA, DFAPA, DFASAM
President, American Society of Addiction Medicine

EDUCATIONAL PURPOSE

The ASAM 49th Annual Conference – *Innovations in Addiction Medicine and Science* translates science into practice and focuses on the latest developments in research, treatments, and policy.

Learning Objectives

At the conclusion of the conference, participants should be able to:

- Identify and describe the new developments affecting the science, policy, and clinical practice of addiction medicine.
- Compare presented clinical guidelines/best practices with the participant's current practice and identify strengths or gaps.
- Analyze new research and science to develop practical applications for treatment or further research.
- Explain recent or upcoming policy changes and identify implications or areas for provider involvement.
- Create a network of professionals or a set of resources that can be used to support the participant's practice.

Attendee Benefits

Welcome Networking Reception with Colleagues & Exhibitors

Sapphire Ballroom, Level 4

Thursday, April 12, 2018 | 5:30 – 7:00 pm

New Member and First-Time Attendee Welcome Reception

Indigo Terrace, Level 2

Thursday, April 12, 2018 | 7:00 pm – 8:00 pm

Ice Cream Networking Reception with Colleagues & Exhibitors

Sapphire Ballroom, Level 4

Friday, April 13, 2018 | 3:30 pm – 4:30 pm

The ASAM Bayside Beach Party

Promenade Plaza, Level 1

Friday, April 13, 2018 | 5:30 pm – 7:00 pm

Cowabunga! Hang ten with attendees by the beautiful San Diego Bay and enjoy a taste of the fun music and delicious food locals love. Catch some rays while catching up with colleagues. Surf's up!

The ASAM Annual Awards Luncheon

Indigo Ballroom BG, Level 2

Saturday, April 14, 2018 | 12:30 pm – 2:30 pm

Draw insight and inspiration from ASAM award winners while enjoying a delicious meal.

A Special Movie Event: HBO/NIAAA Risky Drinking Documentary Screening & Discussion

Indigo Ballroom BG, Level 2

Saturday, April 14, 2018 | 8:00 pm – 10:00 pm

Join us for a special screening and discussion of the HBO (with support from NIAAA) documentary Risky Drinking, a no-holds-barred look at alcohol use disorder through the intimate stories of four people whose drinking dramatically affects their relationships. Risky Drinking takes a case-study look at the hazards of alcohol use and details the ways the medical community views and treats “risky” drinkers. After the film, join George F. Koob, PhD, Director of NIAAA; film producer, Oscar and Emmy winner, and ASAM Media Award winner Ellen Goosenberg-Kent; and film participant Deidra Roach, MD, Medical Project Officer at NIAAA; for conversation about how to identify risky drinking and alternatives to a one-size-fits-all approach for treating alcohol use disorder. Popcorn and refreshments will be provided.

Fun Events & Activities

Get a Jump Start! Morning Walk/Run

Promenade West Foyer, Level 1

Friday, April 13, 2018 | 7:00 am – 8:00 am

Start the day off right with an invigorating walk or run along the San Diego Bay. Guides will lead participants, but feel free to stop to rest and enjoy the view!

Stretch out the Stress! Morning Yoga

Aqua 309, Level 3

Friday, April 13, 2018 | 7:00 am – 8:00 am

Breathe in, breathe out. Join your colleagues for a morning of downward-facing dogs and warrior poses. All levels welcome, mats provided. Namaste.

Take Me Out to The Ballgame!

Petco Park

Friday, April 13, 2018 | 7:10 pm

San Diego Padres vs. San Francisco Giants

Experience one of the Top 5 MLB ballparks with your fellow ASAM Annual Conference attendees. This is your opportunity to obtain specially discounted ASAM tickets in select sections to watch the San Diego Padres take on the San Francisco Giants at Petco Park.

BYOL (Bring Your Own Lunch) Networking Event

Indigo Terrace, Level 2

Saturday, April 14, 2018 | 1:00 pm – 2:00 pm

We encourage you to attend The ASAM Annual Awards Luncheon! However, if you can't attend, join us for an informal lunch chat with colleagues. Purchase your own lunch, engage in interesting conversation, and share stories with peers—discuss whatever is on your mind.

Meet & Treat – Frozen Yogurt (At Your Own Cost)

Promenade West Foyer, Level 1

Saturday, April 14, 2018 | 5:30 pm – 6:30 pm

Meet current friends and make new connections while enjoying tasty frozen yogurt with colleagues. Sign up on-site. Frozen yogurt is at your own cost—not covered by ASAM.

Session Descriptions & Icons

Session Descriptions

Collaborative Sessions (CS) – Developed in collaboration with a partner organization.

Focus Sessions (FS) – Provides an in-depth look at a specific scientific or clinical topic.

General Sessions – Offers unparalleled access to national leaders.

Poster Sessions – Features scientific research on physical posters.

Special Sessions – Gives a unique learning experience.

Symposium Session (SS) – Developed by invited experts to cover priority topics.

Workshop Session (WS) – Uses highly interactive learning formats.

Session Identification Icons

The icons below correspond with the addiction medicine core competencies and were self-identified by session presenters during the abstract submission process. Attendees can select sessions based on their addiction medicine competency needs.

TITLE	SESSION WOULD APPEAL TO	ICON
Clinical Care	Providing medical care to persons with addiction and substance-related health conditions across a spectrum of drugs, stages of use, and presentations, including care directed at prevention.	
Scientific Understanding	Understanding the established and evolving biomedical, clinical, and cognitive sciences and research.	
Practice-Based Improvement	Staying current with evolving science and clinical practices relevant to the continued improvement of patient care.	
Interpersonal Skills	Communicating with patients, their families, and other healthcare professionals to optimize clinical care.	
Professionalism	Representing yourself, your organization, and the field in a professional, health-oriented, responsible, and proactive manner, to reduce substance-related harm, promote health, and address stigma.	
Systems Integration	Address challenges with accessing or navigating complex healthcare/healthcare-related systems needed to improve patient care.

Opioid Addiction Treatment:

A Guide for Patients, Families and Friends

This patient guide includes information on assessment, treatment overview (including treatment plans, patient participation, and counseling), and all the medications available to treatment opioid use and overdose. It also provides links to find a provider and support groups for patients and families.

This guide is a useful tool for clinicians to provide to their patients and their families, along with a resource for pharmacies and patient groups looking to inform people about their options to treat the challenging disease of addiction involving opioid use.

Bulk orders and customized printing available.

Poster 1 – Addiction Medicine & Opioid-Agonist Treatment Curricula in High Demand by APRN Students – Hung Le, MA, RN; Julie A. Edwards, APRN; Jenna Butner, MD, FASAM; Jeanette M. Tetrault, MD, FACP, FASAM

Poster 2 – Assessing Risk of Cannabis Dependence Among Adolescent Dual Marijuana and e-Cigarette Users – Olusegun Owoyemi, MD, MPH

Poster 3 – Barriers that Limit Emergency Department Staff from Distributing Take-Home Naloxone Kits – Carrie Vargo, MD

Poster 4 – Effects of Implementation of a Safe Opioid Prescribing Program in Hospital Medicine – Tharwat Ghattas, MD

Poster 5 – Examining the Relationship Between Exposure to Marijuana Advertising & Recent Marijuana Use – Sean LeNoue, MD – **Honorable Mention: Young Investigator**

Poster 6 – Expanding Access to Buprenorphine Treatment in Rural Areas with Telemedicine – Eric Weintraub, MD; Marian Currens, NP

Poster 7 – Impact of RBP-6000 (Depot Buprenorphine) on Patient-Reported Outcomes: a Long-Term Study – Walter Ling, MD; Vijay R. Nadipelli, BPharm, MS; Caitlyn T. Solem, PhD; Naoko Ronquest, PhD; Yu-Chen Yeh, MS, RPh; Susan Learned, MD, PharmD, PhD

Poster 8 – Improving Nursing Provider Attitudes for Pregnant Women with Opioid Use Disorder – Vania Rudolf, MD, MPH, FASAM; James Walsh, MD, FASAM; Lynne J. Brown, MA, CDP; Jacqueline Wong, MD; Christopher Luke Peterson, DO; Abigail Plawman, MD, FASAM

Poster 9 – Improving HCV Care through Linkage to C Care Program in PWIDs – Imtiaz Alam, MD; Zohha T. Alam, BSc

Poster 10 – Rapid Deployment of a Mobile Medical Unit During an Opioid Overdose Epidemic – Bryan Chow, MD

Poster 11 – Perception of Executive Functioning Mediated by Impulsivity Predicts Heavy Alcohol Use – Meilin Jia-Richards, BS; Sara Dolan, PhD

Poster 12 – The Frequency and Geospatial Distribution of Publicly Discarded Needles in Boston, MA – Benjamin Bearnot, MD – **Award Winner: Best Overall**

Poster 13 – Medication Assisted Treatment for Opioid Use Disorders in Active Duty Military – Donald Berghman, MD; Chideha M. Ohuoha, MD, MPH; Anthony Dekker, DO

Poster 14 – Caring for Patients With Opioid Use Disorder and Endocarditis: a Qualitative Study – Benjamin Bearnot, MD; Julian Mitton, MD, MPH

Poster 15 – Kratom Dependency: Case Review of Induction and Maintenance with Buprenorphine – Alinea Stevens, MD MPH; Annie Mascorro, RN, CARN, PHN; Grace Katie Bell, RN, MSN, RN-BC, CARN, PHN

Poster 16 – Integrated Therapies for Comorbid Substance Use and Anxiety/Depression: A Meta-Analysis – Meagan Dechen, MS, MSc

Poster 17 – Implementation and Evaluation of an Interdisciplinary Prescription Opioid Safety Team – Katelyn A. Brady, RN, MS, PMHNP-BC

Poster 18 – Increasing Prevalence of Methamphetamine Use in Vancouver, Canada: a Sex-Based Analysis – Paxton Bach, MSc, MD

Poster 19 – High Willingness to Use Rapid Fentanyl Test Strips Among Drug-Using Young Adults – Maxwell S. Krieger, BS; Jesse L. Yedinak, MPA; Brandon Marshall, PhD

Poster 20 – Recovery Houses in British Columbia, Canada & Drug-Related Risks and Harms – Ryan McNeil, PhD

Poster 21 – Experience of School SBIRT in Middle and High School Students in Massachusetts – Nicholas Chadi, MD – **Honorable Mention: Fellow-In-Training**

Poster 22 – Characterizing the Presentation of Fentanyl-Related Overdoses Among People Who Use Drugs – Samara Mayer, MPH

Poster 23 – High Mortality Unaffected by Within-Prison Methadone Among Men with HIV Leaving Prison – Alexander R. Bazazi, PhD

Poster 24 – Synthetic Cannabinoid Usage Among Psychiatric Inpatients – Claire L. Mann, MS4

Poster 25 – Social Media Use Among Patients Enrolled in Outpatient Addiction Treatment Programs – Brenda L. Curtis, MsPH, PhD; Robert D. Ashford, MSW

Poster 26 – Take-Home Naloxone for Patients with Opioid Use Disorder – Successful Opioid Reversals – Mikiko Takeda, PharmD; Joanna G. Katzman, MD, MPH; Monica Moya Balasch, MS

Poster 27 – Opioid ECHO: Rapid Scaling of ECHO to Address the Opioid Epidemic – Miriam S. Komaromy, MD, FACP, DFASAM; J. Paul Seale, MD, FASAM

Poster 28 – Medical Marijuana Users More Likely to Use Prescription Drugs Medically and Non-Medically – Theodore Caputi, BS, NDL; Keith Humphreys, PhD

Poster 29 – Methadone Maintenance Treatment for Fentanyl Use; Dose, Retention in Treatment and Relapse – Andrew C. Stone, MD, MPH – **Honorable Mention: Best Overall**

Poster 30 – Online Sales of Marijuana: An Unrecognized Public Health Dilemma – Theodore Caputi, BS, NDL; Keith Humphreys, PhD

Scientific Posters

Two Poster Viewing Sessions | Indigo West Foyer, Level 2

Friday, April 13, 2018 | 12:15 pm – 2:00 pm

Saturday, April 14, 2018 | 10:00 am – 11:30 am

Poster 31 – The Transition from Buprenorphine Maintenance to XR-NTX: a Randomized Double-Blind Study – Danesh Alam, MD, DFASAM; Paolo Mannelli, MD

Poster 32 – Are Long Hospital Stays Needed for Opioid Use Disorder and Injection-Related Infections? – Laura Fanucchi, MD, MPH

Poster 33 – Baseline Characteristics Predictive of Transition onto Extended-release Naltrexone – D. Andrew Tompkins, MD, MHS

Poster 34 – Association between Marijuana, Mental Health, and Tobacco in Colorado – Stephanie Stewart, MD, MPH

Poster 35 – BTOD REMS Program Surveillance Findings: Buprenorphine and Benzodiazepine Concomitant Use – Karen K. Gerlach, PhD, MPH

Poster 36 – Changes in Substance Use Disorder Prevalence from 2008-2016: What About Stimulants? – Steven L. Proctor, PhD

Poster 37 – Characteristics of Patients Receiving Opioid Prescriptions from Primary Care Clinicians – Sebastian Tong, MD, MPH

Poster 38 – Does Early Drinking Correlate to Risky Alcohol Use in College Students? – David Crabtree, MD – **Award Winner: Resident**

Poster 39 – Evaluation & Standardization of a Substance Use Curriculum for Internal Medicine Residents – Seth A. Clark, MD, MPH – **Honorable Mention: Resident**

Poster 40 – Transitioning Patients from Sublingual to Injectable Weekly and Monthly Buprenorphine – Sonnie Kim, PharmD; Genie L. Bailey, MD, FASAM; Michael P. Frost, MD, FACP, FASAM

Poster 41 – Expanded Buprenorphine Services through a Community Pharmacist Integrated Treatment Model – Jennifer E. Behan, PharmD

Poster 42 – HCV Screening Initiative for Patients Undergoing Inpatient Substance Abuse Treatment – Ryan B. Schmidt, MD; Sonnie Kim, PharmD

Poster 43 – Heroin and Methamphetamine Withdrawal Symptoms, Frequency, and Pain Among People Who Inject – Ricky N. Bluthenthal, PhD

Poster 44 – Implementation of State Treatment Standards for Opioid Overdose and Opioid Use Disorder – Elizabeth A. Samuels, MD, MPH – **Award Winner: Fellow-In-Training**

Poster 45 – Medical Student Bias Towards Patients with Addiction – Andrew Ronald, MD; Lutetia Li; Susan Wentz, MD; Henry Ng, MD, MPH, FAAP, FACP

Poster 46 – Patient Reported Illicit Drug Use Screening by Healthcare Professionals, 2013-2015 – Anna C. Scialli, MPH, MSW; Mishka Terplan, MD, MPH, FACOG, DFASAM

Poster 47 – Partnering to Expand MAT in RI's Department of Corrections: Improving Public Health – Rosemarie Martin, PhD

Poster 48 – Prescription Opioid Misuse Among Adolescents Presenting to the Pediatric Emergency Dept – Meghan R. Beucher, MD

Poster 49 – Low Barrier Buprenorphine Treatment for Homeless Patients with Opioid Use Disorders – Jamie Carter, MD, MPH – **Honorable Mention: Fellow-In-Training**

Poster 50 – Ceasing to Require Stimulant Abstinence Increases Engagement in Buprenorphine Treatment – Bjorn E. Payne; Jared W. Klein, MD, MPH; Joseph O. Merrill, MD, MPH, FASAM; Judith I. Tsui, MD, MPH

Poster 51 – Perspectives on Buprenorphine Adherence and Use of mHealth Technology to Address Barriers – Judith I. Tsui, MD, MPH

Poster 52 – HIV and HCV Universal Screening in the Emergency Department: FOCUS Project – Monica Bahamon, MPH

Poster 53 – Opioid, Other Drug Use Disorders and 30-Day Inpatient-Readmission in the US, 2010-2014 – Maria C. Mejia de Grubb, MD, MPH, FACPM

Poster 54 – Mental Health and Addiction Diagnoses Predict Death in the Year Following Opioid Poisoning – Pamela Leece, MD, MSc – **Honorable Mention: Young Investigator**

Poster 55 – Contraceptive Knowledge of Patients Receiving Medication for Opioid Use Disorder – Heidi S. Melbostad, MS

Poster 56 – Reduced Hospitalizations and Increased Abstinence Six Months After Recovery Coach Contact – Jessica F. Magidson, PhD; Sarah Wakeman, MD, FASAM – **Award Winner: Young Investigator**

Poster 57 – Get Waivered: A Campaign to Get Emergency Physicians Waivered to Prescribe Buprenorphine – Alister Martin, MD, MPP; Laura Kehoe, MD, MPH, FASAM; Sarah Wakeman, MD, FASAM

Poster 58 – Changes in Polysubstance Use Among Patients on Methadone for Opioid Use Disorder – Nikhita Singhal, BHSc, MD

Poster 59 – An Opportunity to Intervene? The Opioid Epidemic and the Pennsylvania Warm Hand-off – Monica Giacomucci, MPH

Poster 60 – Addressing the Opioid Crisis: Assessment of Clinicians in a Large Healthcare System – Harshal Kirane, MD; Elina Drits, DO

OVERVIEW

The ASAM Pain & Addiction: Common Threads Course is one of ASAM's longest running and most popular courses. This course is designed to develop learners' clinical skills and improve treatment of patients who fall somewhere in the gray area around pain and addiction. This course is designed for those in the addiction medicine field who already have some experience with pain and addiction.

This year's course will address some of the most common barriers and challenges standing in the way of effective treatment and provide learners with skills or resources to immediately use in their practices. Presenters will address challenges such as appropriately assessing, diagnosing or treating patients (particularly those with psychiatric comorbidities). Inaccurate diagnosis or referral can hinder treatment progress and impact patient trust in their health care providers. Presenters will also address complex, challenging patient cases such as patients on high doses of opioids or sedatives, patients with nicotine dependence, special patient populations, and many others. Lastly, presenters will review components of strong integrated practice settings and provide resources for learners to use in their own clinical practices. Many presentations will have a non-didactic component allowing participants to either self-reflect, review challenging cases, or engage with the presenters.

EDUCATIONAL PURPOSE

Participants will learn clinical best practices and new research developments for treating patients with pain and addiction and how to begin to integrate these techniques into their own practices.

LEARNING FORMAT AND METHODOLOGIES

This live course will include short sessions with deep dives into challenging topics. Many of the short sessions will include case examples, additional resources, or opportunities to self reflect. There will an interactive panel discussion and ample time for learners to engage with the presenters during question and answer sessions.

LEARNING OBJECTIVES

Upon completion, participants should be able to:

1. Distinguish between physiological dependence, substance use disorder, misuse, tolerance, and nonadherence in the context of pain.
2. Use physical exams, functional assessments, screening tools, collateral information, and other tools in a clinical setting.
3. Describe the interaction between pain, pain medication, addiction, and the patient's emotional or psychological state.
4. Make appropriate treatment decisions for patients with pain, addiction, and psychiatric comorbidities.
5. Explain the impacts of nicotine on pain treatment and develop methods for addressing nicotine use with patients.
6. Manage the complex treatment needs of pregnant populations with pain and/or addiction.
7. Direct or implement the medical management of withdrawal from opioids and other drugs.
8. Evaluate the recent literature on benefits and limitations medication assisted treatment.
9. Assess various practice models and create a plan for developing an integrated pain and addiction practice.

PAIN & ADDICTION SCHEDULE

8:00 am – 8:15 am

ASAM Welcome
Kelly J. Clark, MD, MBA, DFAPA, DFASAM
 Welcome Remarks & Course Introductions
Mark A. Weiner, MD, DFASAM

8:15 am – 9:00 am

Expert Use of Terminology in the Treatment of Addiction and Pain
R. Corey Waller, MD, MS, FACEP, DFASAM

9:00 am – 9:45 am

Performing a Skillful Physical Exam in A Patient with Pain
Michael Weaver, MD, DFASAM

9:45 am – 10:30 am

Multidimensional Analysis: Pain, Addiction and Psychological Comorbidity
Penelope P. Ziegler, MD, DFASAM

10:30 am – 10:45 am

Refreshment Break

10:45 am – 11:45 am

Multidimensional Treatment: Pain, Addiction and Psychological Comorbidity
Launette Marie Rieb, MD, MSc, CCFP, FCFP, FASAM; Melvin Pohl, MD, DFASAM

11:45 am – 12:30 pm

Pain, Addiction and Nicotine Dependence: Science and Impact
Terry A. Rustin, MD, DFASAM; R. Corey Waller, MD, MS, FACEP, DFASAM

12:30 pm – 1:30 pm

Lunch Break (Box lunches provided)

1:30 pm – 2:15 pm

Special Populations for the Pain and Addiction Expert: Pregnant Women
Carl Christensen, MD, PhD, DFASAM

2:15 pm – 3:00 pm

Complexities of Medication Toxicity: Diffusing Extreme Opiate and Sedative Dependency In Medically Unstable Patients
Mark A. Weiner, MD, DFASAM; William S. Jacobs, MD

3:00 pm – 3:45 pm

Current Evidence on Medication-Assisted Treatment Models
Laura Morgan, PharmD, MEd, BCPS

Pre-Conference Offerings

PAIN & ADDICTION SCHEDULE (CONT.)

3:45 pm – 4:00 pm

Refreshment Break

4:00 pm – 4:45 pm

Bringing This All Together: What A

Functional Addiction and Pain Practice Can Look Like

CONTINUING MEDICAL EDUCATION CREDIT

The American Society of Addiction Medicine designates this live activity for a maximum of **8 AMA PRA Category 1 Credit(s)**™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Additional CE Credits See page 52 for more details.

ASAM
THE **MOTIVATIONAL
INTERVIEWING**
Workshop

Thursday, April 12, 2018
8:00 am – 5:30 pm
Indigo Ballroom AE & DH, Level 2
(Separate registration required)

OVERVIEW

The ASAM Motivational Interviewing Workshop is a new, interactive workshop designed to introduce and expand participants' knowledge on utilizing Motivational Interviewing (MI) in an addiction treatment setting. MI is a goal-oriented, collaborative counseling style that evokes a person's own motivations for and commitment to change. This workshop is designed for those in the addiction treatment field who are just beginning to explore MI and those who already have some experience.

Physicians, clinicians, counselors, and all those working with patients with addiction often find that one of the main barriers to effective treatment is the patients' perceived lack of motivation to make changes. Without motivation on the patient's part, making or sustaining progress regarding treatment goals can be difficult. MI is one technique clinicians can utilize to encourage patients to explore, recognize and overcome ambivalence to make positive changes. Participants of this workshop will be introduced to the key concepts and skills of MI and explore ways to effectively integrate MI into addiction treatment to help promote positive patient outcomes

EDUCATIONAL PURPOSE

Participants will learn about the basic principles and skills of MI in addiction treatment and how to begin to integrate these techniques into their own practices.

LEARNING FORMAT AND METHODOLOGIES

This live workshop is designed to be interactive, with many opportunities for participant engagement and discussion. Sessions throughout the day will be led by a team of MI experts and include a mixture of lectures, demonstrations, and skills building.

Participants will be assigned to one of two breakout rooms (either Indigo Ballroom AE or Indigo Ballroom DH). Both breakout rooms will feature the same content throughout the day.

LEARNING OBJECTIVES

Upon completion, participants should be able to:

1. Articulate the spirit of Motivational Interviewing
2. Identify the core features of MI congruent interactions
3. Recognize change talk and apply the basic MI skills of open ended questioning, affirming, reflective listening, and summarizing to selectively reinforce change talk
4. Pursue further practice and training opportunities in the skills of MI beyond this day-long workshop

MOTIVATIONAL INTERVIEWING SCHEDULE

8:00 am – 8:20 am

Welcome and Introductions
Brian Hurley, MD; Carla Marienfeld, MD

8:20 am – 8:30 am

Exercise: What Do You Know About Motivational Interviewing (MI)?
Kenneth Saffier, MD; Jennifer Hettema, PhD

8:30 am – 8:40 am

Exercise: What Do We Want Cover?
Brian Hurley, MD; Carla Marienfeld, MD

8:40 am – 9:00 am

Didactic: Introduction to MI and the Spirit of MI
Brian Hurley, MD; Carla Marienfeld, MD

9:00 am – 10:15 am

Exercise: A "Taste" of MI
Brian Hurley, MD; Carla Marienfeld, MD

9:25 am – 9:35 am

Didactic: The Four Processes
Florence Chanut, MD; Jeffrey Devido, MD

9:35 am – 9:45 am

Didactic: Three Styles of Focusing and Agenda Mapping
Miriam Komaromy, MD; Peter Selby, MBBS

9:45 am – 10:15 am

Demonstration: Agenda Mapping and Elicit-Provide-Elicit
Miriam Komaromy, MD; Peter Selby, MBBS

10:15 am – 10:30 am

Refreshment Break

10:30 am – 10:55 am

Didactic: Technique of MI: Using OARS, Informing, and Advising with a focus on Reflective Listening
Brian Hurley, MD; Carla Marienfeld, MD

10:55 am – 11:05 am

Demonstration: Praising vs. Affirming
Florence Chanut, MD; Jeffrey Devido, MD

11:05 am – 11:35 am

Exercise: Simple/Complex Reflections
Miriam Komaromy, MD; Peter Selby, MBBS

11:35 am – 12:00 pm

Demonstration: Summaries
Kenneth Saffier, MD; Jennifer Hettema, PhD

12:00 pm – 12:20 pm

Didactic: Recognizing and Reinforcing Change Talk
Miriam Komaromy, MD; Peter Selby, MBBS

12:20 pm – 12:30 pm

Demonstration: Drumming for Change Talk
Kenneth Saffier, MD; Jennifer Hettema, PhD

12:30 pm – 1:30 pm

Lunch Break (Box lunches will be provided)

1:30 pm – 1:45 pm

Exercise: OARS in Action
Florence Chanut, MD; Jeffrey Devido, MD

1:45 pm – 2:00 pm

Demonstration: DARN CAT; Wedding Proposal Exercise
Kenneth Saffier, MD; Jennifer Hettema, PhD

Pre-Conference Offerings

MOTIVATIONAL INTERVIEWING SCHEDULE (CONT.)

2:00 pm – 2:10 pm

Didactic: Contrasting Change with Sustain Talk
Brian Hurley, MD; Carla Marienfeld, MD

2:10 pm – 2:45 pm

Exercise: Responding to Change Talk: Easy as 1-2-3-4
Kenneth Saffier, MD; Jennifer Hettema, PhD

2:45 pm – 2:55 pm

Didactic: Dancing with Discord
Florence Chanut, MD; Jeffrey Devido, MD

2:55 pm – 3:25 pm

Exercise: Team Consult / Fishbowl – Fishing
Change Talk from the Jaws of Ambivalence
Florence Chanut, MD; Jeffrey Devido, MD

3:25 pm – 3:45 pm

Didactic: Guiding a Change Plan
Brian Hurley, MD; Peter Selby, MBBS

3:45 pm – 4:00 pm

Refreshment Break

4:00 pm – 4:30 pm

Exercise: What Have You Learned in This
Workshop That You Can Put Into Practice?
Kenneth Saffier, MD; Jennifer Hettema, PhD

4:30 pm – 4:40 pm

Didactic: Stages of Learning Motivational Interviewing
Florence Chanut, MD; Jeffrey Devido, MD

4:40 pm – 4:50 pm

Exercise: Making My Own MI Practice Plan
Brian Hurley, MD; Carla Marienfeld, MD

4:50 pm – 5:00 pm

Didactic: Where Physicians and
Medical Clinicians Get Stuck
Kenneth Saffier, MD; Peter Selby, MBBS

5:00 pm – 5:30 pm

Course Wrap-Up and Summary
Brian Hurley, MD; Carla Marienfeld, MD

*Faculty member pairs will be divided between the two break-out rooms.

Indigo Ballroom BG, Level 2

See page 16 & 17 for more information.

12:00 pm – 2:00 pm

Special Session

Off-Site Learning Experience – Betty Ford Center, Part of the Hazelden Betty Ford Foundation

Promenade East Foyer, Level 1

Brian Couey, PsyD, LAADC, CATC-IV, CAMF; Joseph Skrajewski, MA, MFTI;

Christopher Yadron, PhD, LCPC, CADC

Experience the world-famous Betty Ford Center in San Diego.

Learn about their unified system of care, moving from expert clinical intervention to self-management, and advancements in medical education on addiction. Programs covered include Comprehensive Opioid Response with Twelve Steps (COR-12™), Young Adult Program, feedback-informed treatment, uses of technology in recovery environments, and Medical and Professional Education (MPE)

1:30 pm – 2:30 pm

Quality Statement Writing Committee Meeting

Aqua 314, Level 3

3:00 pm – 5:00 pm

Addiction Medicine Fellowships – Welcome to the New Era of ACGME

Indigo Ballroom AE, Level 2

Lon R. Hays, MD, MBA, DFAPA, DFASAM; Randall T. Brown, MD, PhD, DFASAM; Timothy K. Brennan, MD, MPH, FASAM; Jeanette M. Tetrault, MD, FACP FASAM

Sponsored by: The Addiction Medicine Foundation (TAMF)

Experts in addiction medicine fellow education will present information regarding the logistics of and planning for ACGME accreditation of fellowships and guide attendees in an interactive session focusing on fellowship planning. This workshop is a unique and timely opportunity to learn the latest details on what is needed to design a fellowship that can successfully join the ranks of ACGME training programs. At the workshop's conclusion, arrangements will be made with interested participants for ongoing technical assistance from TAMF and AMFDA.

Collaborative Session

Becoming Certified in Addiction Medicine through ABPM

Indigo Ballroom BG, Level 2

Christopher J. Ondrula, JD; Michael Weaver, MD, DFASAM

Sponsored by: American Board of Preventive Medicine (ABPM)

In the spring of 2017, ABPM offered physicians who are certified by a Member Board of the American Board of Medical Specialties (ABMS) the opportunity to apply and become certified in the subspecialty of Addiction Medicine. Presenters will review the requirements and various pathways (eg, Practice Pathway and Fellowship) available for physicians, to apply for eligibility to sit for the Addiction Medicine subspecialty exam. Information on the timeline for the 2018 application cycle, dates for the examination period, and fee schedule will also be made available. Ample time will be provided for questions from the attendees.

Collaborative Session

Move from Good to Great Presentations: Audience Aboard, Not Bored

Indigo Ballroom DH, Level 2

Marcia Jackson, PhD; Mike Monahan, MEd, RN

Sponsored by: ASAM's Medical Education Council

Great presentations are the result of knowledge, skills, and resources that can be applied in any type of educational setting. This workshop will feature brief didactic information to enhance knowledge with tips on how to master stage presence, gain and hold audience attention, avoid distracting mannerisms and movements, and manage difficult audiences. Audience members will form pairs to rehearse presentation skills and provide feedback to one another. As a concluding activity, two to three volunteers will be asked to make their presentation for the entire audience, who, in turn, will discuss and provide feedback. The session incorporates humor, which not only makes the workshop a fun experience, but also eases any presentation anxiety.

OPENING SCIENTIFIC PLENARY SESSION

Friday, April 13, 2018
8:30 am – 10:00 am
Indigo Ballroom, Level 2

Elinore F. McCance-Katz, MD, PhD; Michael E. Charness, MD; Judy Collins

The ASAM 49th Annual Conference begins with the energizing Opening Scientific Plenary Session. Led by ASAM President Kelly J. Clark, MD, MBA, DFASAM, the opening session will focus on the incredible impact addiction medicine providers can have on an individual, policy, and the future of treatment and science.

Elinore F. McCance-Katz, MD, PhD – the first Assistant Secretary for Mental Health and Substance Use, Department of Health and Human Services

SAMHSA/HHS: An Update on the Opioid Crisis

Dr. McCance-Katz fervently supports evidence-based early intervention, treatment, and recovery services for people who have mental health and substance use disorders. Dr. McCance-Katz will summarize some of the major components of the opioid epidemic in the United States that have contributed to the current public health emergency. She will also present the Department of Health and Human Services' plan for addressing the opioid crisis and trends observed in the most recent outcomes data.

Michael E. Charness, MD – Chief of Staff, VA Boston Healthcare System
R. Brinkley Smithers Distinguished Scientist Award Winner

Diagnosis and Treatment of Alcohol Use Disorder in 2070: A Look through the Crystal Ball

Dr. Charness has cared for patients with neurological complications of alcohol use disorder and peripheral nerve disorders throughout his career. His presentation will cover science, technology, and the practice of medicine which are evolving at an astonishingly rapid pace. To drive progress in the diagnosis and treatment of alcohol use disorder (AUD), we must first envision how revolutionary changes in the practice of medicine might surmount today's obstacles to providing effective care for AUD: limited access to care; the unavailability of highly specific and effective biological, cognitive, and behavioral therapies; insufficient personalization of care; and the persisting stigma that discourages affected individuals from seeking care. In this presentation, we will envision how progress in addressing these diverse issues might alter the diagnosis and treatment of AUD in the year 2070.

Judy Collins – Legendary Singer/Songwriter, Musician

The Lasting Impact of the Addiction Specialist

Judy Collins is an accomplished songwriter, painter, filmmaker, record label head, and musical mentor. Ms. Collins struggled with alcohol addiction throughout her life and career as a musician. After being urged to see an addiction specialist, late ASAM Past President Stanley Gitlow, Judy found the strength to begin her recovery journey. This presentation will explore the real and genuine impact the addiction specialist has on each patient. She will share her inspiring story of personal triumph and her gift of music.

OPENING SCIENTIFIC PLENARY SCHEDULE

- 8:30 am** **Welcome to San Diego and The ASAM 49th Annual Conference**
Kelly J. Clark, MD, MBA, DFAPA, DFASAM
- 8:40 am** **SAMHSA/HHS: An Update on the Opioid Crisis**
Elinore F. McCance-Katz, MD, PhD
- 9:05 am** **Diagnosis and Treatment of Alcohol Use Disorder in 2070: A Look through the Crystal Ball**
Michael E. Charness, MD
- 9:35 am** **The Lasting Impact of the Addiction Specialist**
Judy Collins
- 10:00 am** **Adjourn**

10:45 am – 12:15 pm

Focus Session

Advocating for Treatment and Patients at the State Level

Indigo 204, Level 2

Cara A. Poland, MD, MEd, DFASAM; Michael Bierer, MD, MPH; Mark Jorrich, MD, DFASAM

Since 2017, ASAM has dedicated resources to assisting all those interested with responding to or leading legislative and regulatory efforts on addiction medicine policy at the state level. From submitting support and opposition letters for specific legislation, commenting on regulations and Governor initiatives, or testifying at committee hearings and agency meetings, ASAM members, health care professionals, and like-minded advocates have been working together to take advantage of the opportunity to be a part of the discussion. Hear from and ask questions to a panel of several ASAM chapter presidents as they present case studies of what state advocacy their chapter has been a part of, how they engaged ASAM's national office, their local members, and elected officials, and how they worked with other local advocates and stakeholders to affect positive policy changes.

Focus Session

Current Trends of Novel Psychoactive Substance Use and Abuse

Indigo Ballroom AE, Level 2

Christine Murphy, MD; JoAn Laes, MD, FASAM; Matthew Peter Stripp, MD
There continues to be widespread use of novel psychoactive substances (NPS) with the number of different novel psychoactive substances increasing worldwide every year. It is important for providers in the field of addiction to understand the evolution of novel psychoactive substances, who is using them, signs and treatment of acute toxicity, available laboratory testing, and what is known about long-term sequelae from use of these agents including the potential for addictive disorders and withdrawal in chronic use. This knowledge will allow providers to identify and manage patients at risk from complications of use of these substances.

Workshop Session

Hepatitis C Prevention, Management and Treatment for Addiction Medicine Practitioners

Indigo Ballroom BG, Level 2

Alain H. Litwin, MD, MPH, MS

The opioid epidemic is a major driver of new cases of Hepatitis C infection. Seventy- to 77-percent of people who inject drugs are HCV positive. This workshop will review the epidemiology of hepatitis C among people who inject drugs. It will also present effective strategies to enhance HCV testing, linkage to care and treatment for people who inject drugs. A particular focus will be given to the role of addiction medicine practitioners in preventing and treating HCV, especially in substance treatment facilities.

Workshop Session

How to (Quickly!) Appraise Whether Study Results Should be Applied in Practice

Sapphire Ballroom IM, Level 4

Richard Saitz, MD, MPH, DFASAM, FACP; Frank J. Vocci, PhD; Martha J. Wunsch, MD, FAAP, DFASAM; Howard Moss, MD
Journal of Addiction Medicine editors will facilitate large and small group discussions to impart skills of critical appraisal of addiction medicine research studies. Critical appraisal involves beginning with a clinical question or scenario, assessing whether reported study methods support validity to address the question (specific

Sessions Key

Practice-Based Improvement	
Systems Integrations	

to whether the question is about treatment, diagnosis or prognosis), noting the results and their precision, and assessing the applicability of the study results to clinical practice. Small groups will be facilitated by faculty as participants use worksheets to apply the principles to specific articles. Small groups will report out to the larger group to discuss conclusions.

Workshop Session

Implementing MAT into Federally Qualified Health Centers: Challenges and Solutions

Aqua Salon DEF, Level 3

Elizabeth M. Salisbury-Afshar, MD, MPH, FAAFP, FASAM, FACPM; Rachel King, MD, FASAM

Federally Qualified Health Centers (FQHCs)—safety net community health centers—are being called on to create or expand MAT services as the opioid crisis grows. Many FQHCs are new to addiction medicine and MAT, and few have the opportunity to meet with individuals from other systems to discuss challenges and potential solutions in developing effective programs. The session organizers will open the session by discussing different models of office-based opioid treatment, describing challenges many health systems struggle with when initiating office-based MAT programs and describe solutions that they've seen effectively executed. The second half of the session will be spent in groups discussing challenges in implementing and integrating MAT into existing FQHC programming.

Workshop Session

Opioid and Alcohol Use Disorders in Older Adults: Working Group Guideline Development

Indigo Ballroom DH, Level 2

Launette Marie Rieb, MD, MSc, CCFP, FCFP, FASAM; Peter Butt, MD, CCFP, FCFP

Alcohol has now surpassed tobacco as the leading cause of hospital admission in some Canadian provinces, yet alcohol use disorders among those 65 and older often go unidentified and untreated. In addition, older adults are overrepresented among Canadians who have had fatal or non-fatal opioid overdoses, yet identification and treatment of opioid use disorders as well as appropriate use of opioids for chronic non-cancer pain remain a challenge for many clinicians. The Canadian Coalition for Seniors Mental Health have been tasked by Health Canada to create guidelines for the assessment and treatment of alcohol and opioid use disorders in older adults. In this interactive session, the methods and early draft guidelines will be presented and feedback sought from participants.

Symposium Session

Using Alcohol Biomarkers to Guide Pharmacotherapy for Alcohol Use Disorder

Aqua Salon ABC, Level 3

Deidra Y. Roach, MD; Scott H. Stewart, MD, MS; Judith Hahn, PhD, MA; M. Katherine Jung, PhD

Sponsored by: National Institute on Alcohol Abuse and Alcoholism

Clinicians can use several biochemical measurements to objectively assess patients' current or past alcohol use. However, none of these currently available biomarkers, including measures of various liver enzymes and blood volume, are ideal. Several more experimental markers hold promise for measuring acute alcohol consumption and relapse. This symposium will provide an update on the use of alcohol biomarkers in general clinical practice, with special emphasis on: the use of alcohol biomarkers as a guide to the diagnosis and treatment of AUD in primary care settings; the use of phosphatidylethanol (PEth) testing as a guide to treatment in patients with co-occurring HIV/AIDS and AUD; and the use of alcohol biosensors to monitor response to treatment in both specialty and non-specialty treatment settings.

The Success of ASAM's CONTINUUM™ – Large System Adventures in Innovation

Aqua Salon ABC, Level 3

David R. Gastfriend, MD, DFASAM; David Mee-Lee, MD, FASAM; Paul H. Earley, MD, DFASAM; Gary Tsai, MD, FASAM, FAPA

The ASAM Criteria decision rules are complex, which has led to unauthorized, unvalidated attempts at abridgement. In response, the US funded a standardized implementation: CONTINUUM™. Large county/state systems using CONTINUUM™ report a rapid learning curve and 60-minute average duration. The 10-minute CO-Triage™ provisionally determines the initial level-of-care referral and pilot programs found good level-of-care distributions, conformity with ASAM's principles, and provider/patient acceptance. Successful large system pilots have expanded public sector use in Massachusetts, Los Angeles and California's prison system. Presenters will discuss the benefits of the health information technology revolution for those practicing addiction medicine and will engage participants in future developments for the CONTINUUM™ system.

1:00 pm – 1:45 pm

(COPE) has obtained survey responses from more than half the Nation's demonstrate an urgent need to increase attention to opioid prescribing practices, as well as to identification and management of patients who are at risk for or experiencing opioid use disorders (OUDs). Presenters from multiple perspectives, including expertise in addiction, medical education, faculty development, and delivery of patient care, will explore the nature and extent of the problem and approaches to addressing it.

Symposium Session

Annual Review of Addiction Medicine Highest Impact Publications

Indigo Ballroom AE, Level 2

Joshua Lee, MD, MSc; Sarah Wakeman, MD, FASAM

This is an annual review of the highest impact, peer-reviewed articles across the field of Addiction Medicine for 2017-2018. The review is composed of brief high-level presentations of each article, organized under the ASAM Principles of Addiction Medicine textbook chapter headings: neurobiology, epidemiology, pharmacology, intoxication and withdrawal syndromes, screening and diagnosis, mutual help, harm reduction, criminal justice, dual diagnoses, and pharmacologic and behavioral interventions. The goal of this session is to provide the learner with a concise, structured, critical summary of the important recently published scientific papers. All of the core Principles chapters are covered, using the highest rated articles within these topics.

Workshop Session

Forgiveness and Addiction: Addressing Resentment, Guilt, and Shame in Recovery

Aqua Salon DEF, Level 3

Richard F. Camino-Gaztambide, MD, MA; Brett Daniel. Kaylor, DO;

Jonathan Ek, MD; Eunice Malave de Leon, MSW, EdD

Research has shown that feelings of anger, shame, guilt, resentment, and rejection play a role in recovery. The concept of forgiveness can be a powerful tool to help patients address real or perceived offenses, injury, and trauma that they have done or received by others. Clinicians can integrate the twelve-step facilitation model, especially steps four through nine, or other models, like CBT and ACT, into practice to use the concept of forgiveness in effective ways. This workshop will provide basic theoretical and clinical underpinnings, use case presentations, interactive discussions, to provide skills that can facilitate the implementation of forgiveness in clinical practice.

Focus Session

Improving Treatment for Opioid Use Disorders: A System-Wide Approach

Aqua Salon ABC, Level 3

Marc Galanter, MD, DFASAM; Yngvild K. Olsen, MD, MPH, DFASAM; Brian Hurley, MD, MBA, DFASAM; Arthur Robin Williams, MD, MBE, FASAM

This session is designed to enhance the ability of participants to play an active role in improving clinical outcome within treatment systems in which patients with addictions involving opioids receive care. This is important because evidence-based approaches on municipal, state, and national levels are often not provided in a reliable manner. The speakers, expert in their respective areas, will provide data-based descriptions of specific community-based opioid treatment systems, the problems inherent in their effective operation, and options for improving access to effective care. These talks will be followed by a panel discussion and exchange with the audience to help participants apply this in their own professional work.

Program Details | Friday, April 13

2:00 pm – 3:30 pm

Symposium Session

Leveraging Technologies and EHR in SUD Treatment: NIDA CTN Research Initiatives

Indigo Ballroom BG, Level 2

Geetha A. Subramaniam, MD, DFAPA, DFAACAP; Jennifer McNeely, MD, MS; Gavin Bart, MD, PhD, FACP, DFASAM; Lisa Marsch, PhD

Sponsored by: National Institute on Drug Abuse

Brief presentations of current research projects within the National Institute on Drug Abuse National Drug Treatment Clinical Trials Network (CTN) that leverage technology to improve the integration of substance use screening and treatment in medical settings will be followed by a lively discussion of the rationale, study design/ methodology and preliminary findings of several initiatives. Presenters will discuss: the electronic screen/brief assessment TAPS Tool and describe an ongoing substance use screening implementation study; a pilot clinical decision support (CDS) for the management of opioid use disorder in primary care; and research findings on mobile and web-based technologies to augment addiction treatment in specialty care and general medical settings.

Workshop Session

Motivational Interviewing: Brushing up on the Basics

Sapphire Ballroom IM, Level 4

Carla Marienfeld, MD; Petros Levounis, MD, MA, DFASAM; Natassia Gaznick, MD, PhD

Motivational Interviewing (MI), detailed in Miller and Rollnick's books (1991, 2002, 2013), has been transformational in medical care.

Despite being released in 2013, the approach and spirit in the third

edition has only very slowly made its way into the repertoire of most clinicians. Indeed, the new four process approach does not utilize even some of the most famous principles and skills from prior iterations. MI concepts are easy to understand, but use requires continual practice and skill refinement. This session seeks to build upon familiar concepts in MI and update those with the latest terminology, understanding, uses, and skills in MI using a combination of didactics and interactive large and small group sessions to practice various aspects of the approach.

Workshop Session

SUD Patients and Pain: The Multi-Faceted and Ever Changing Clinical Challenges

Indigo Ballroom DH, Level 2

Edwin A. Salsitz, MD, DFASAM; Theodore Parran, MD

Substance use disorders and pain-related issues are frequently encountered in the same patient or patient family system. There is substantial evolution in the management of older challenges as well as the emergence of new issues in the rapidly changing interface between pain and addiction. This workshop will use interactive learning techniques to explore several of these areas including: pain management in patients on MAT, the CDC Chronic Pain Guidelines and SUD patients, differences between men and women with regards to pain, and the emerging controversies around gabapentinoids.

3:30 pm – 4:30 pm

Addiction Medical Management with Patients that Use Cannabis

Sapphire Ballroom IM, Level 4

Iman Parhami, MD, MPH; Brian Hurley, MD, MBA, DFASAM

The prevalence of cannabis use is expected to increase in light of ongoing regulatory changes permitting the legal sale and use of cannabis, and people who come to the attention of addiction medicine physicians and to psychiatrists are increasingly likely to use cannabis. Understanding the association between cannabis use, other substance use disorders, and psychiatric symptoms and conditions is critical to the modern practice of addiction medicine. This presentation is designed to prepare clinicians to provide addiction medical management and/or psychiatric care in patients who also use cannabis.

Focus Session

Effectiveness of XR-Naltrexone vs. Buprenorphine: Results of Two Randomized Trials

Indigo Ballroom E, Level 2

Joshua Lee, MD, MSc; John Rotrosen, MD; Edward Nunes, MD; Lars Tanum, PhD

Opioid use disorder is a major global public health problem with increasing prevalence and mortality from overdoses. Effective medications exist, including agonist substitution strategies with the full agonist methadone and partial agonist buprenorphine. The antagonist naltrexone was of limited effectiveness when only available in pill form due to poor adherence, but long-acting injectable naltrexone, as well as long-acting implants in some countries, have shown clear

POLICY PLENARY SESSION: STATE POLICY APPROACHES TO ADDICTION MEDICINE ACCESS AND QUALITY

Saturday, April 14, 2018
8:30 am – 10:00 am
Indigo Ballroom, Level 2

While the federal government has taken some steps to improve access to and quality of addiction treatment in recent years, many states have also been busy passing a flurry of laws and writing regulations related to addiction prevention, treatment, and recovery. States hit hard by the opioid overdose epidemic have established Task Forces, declared states of emergency, applied for federal waivers to transform their Medicaid programs, issued naloxone standing orders, and established countless other policies to reduce opioid prescriptions, promote harm reduction strategies, fund treatment, or regulate addiction treatment services. This Policy Plenary, moderated by ASAM President-Elect Paul Earley, MD, DFASAM, will explore state-level approaches to improving addiction medicine quality and access, discuss examples of policies that have worked well and those that have had unintended consequences, and help equip attendees to be effective advocates for good addiction policies in their states.

Jay Butler, MD (Public Policy Awardee)

The Pew Charitable Trusts

(Continued...)

effectiveness compared to counseling without medication, placebo, or oral naltrexone. Thus, clinicians and their patients with opioid use disorder now have a choice between medications with distinct mechanisms of action—agonist or antagonist. This session will focus on the only head-to-head randomized trials comparing buprenorphine to XR-naltrexone. Participants will be able to apply findings from the trials to their practice, and consider policy and public health implications for the expanding use of XR-naltrexone and buprenorphine.

11:30 am – 12:30 pm

Focus Session

From Overdose to Engagement: Working with First Responders and Emergency Departments

Indigo Ballroom DH, Level 2

Melissa A. Reyes, MA, CRC

Project POINT was developed with the mindset to provide a wrap-around service for overdoses like other medical emergencies were receiving. Contact with the patient does not end once they're discharged from the emergency department and follow-up calls not only help the patient stay connected to POINT, but also to maintain and assist the patient's engagement with the treatment process. POINT staff works to remove as many barriers as possible to help those wanting treatment to actually be able to get the services they desire. Presenters will discuss the core components of high-quality care for overdose survivors, the process of creating and implementing POINT, as well as challenges faced during implementation and strategies for overcoming those challenges.

Focus Session

Healthcare & Drug Court Partnerships

Aqua Salon ABC, Level 3

Andrew Brown, MPA, MSW; Michele Virva, LCSW; Tyson Smith, PhD
Persons with an addiction disorder rarely interact with only one healthcare system or provider. Yet coordination and collaboration between healthcare, addiction treatment, and other systems is often poorly executed. As death rates continue to increase around the country, it is critical we start building broader systems of care. This presentation will focus on building better coordination between healthcare and criminal justice, with specific focus on drug courts.

Presenters will address the importance of dismantling barriers such as concerns about confidentiality and stigma of MAT. Presenters will provide specific strategies for improving collaboration among systems, thus building better and more effective systems of care for individuals suffering from an addiction disorder.

Focus Session

Red Light: Reducing the Harm of Sex Work in SUD Clients

Aqua Salon DEF, Level 3

Stephanie M. Dixon, CSAC; James Sizemore

Many patients in addiction treatment are or have been sex workers. This interactive session is designed for treatment providers interested in better understanding sex workers, including their legalities, rights, and unique treatment needs. Providers will learn the different challenges sex workers face and how to utilize them in a treatment plan. Providers will also learn how to have open and honest conversations that are not stigmatizing and will develop skills needed to provide sex working patients with tips on how to work safely. Presenters will discuss HIV and STD testing, how to help a patient understand the importance of knowing their status, and how to start sex worker outreach in your area.

Workshop Session

Transitions in Care and Linkage to Treatment from Acute Care Settings

Indigo Ballroom A, Level 2

Ross W. Sullivan, MD, FASAM; JoAn Laes, MD, FASAM; Alaina R. Steck, MD, FASAM

The acute care setting can provide reachable moments for initiating addiction care. Medications for opioid and alcohol use disorders can be initiated promoting engagement in outpatient SUD care and MAT, with potential to reduce readmissions and morbidity associated with SUD. Workshop attendees will work through multiple cases revolving around models of addiction care transition from the emergency room and inpatient hospital setting. Workshop presenters will discuss three unique protocols used at their respective institutions. Attendees will better understand the barriers and solutions of care of the addicted patient in the acute care setting and how to integrate with community resources and outpatient care.

The ASAM Annual Awards Luncheon

The ASAM Annual Awards Luncheon is an opportunity to honor those making notable contributions to the field of addiction medicine and policy.

Ticketed Event – Purchase ticket at Registration Desk by Friday, April 13 at 12:00 pm.

Saturday, April 14, 2018
12:30 pm – 2:30 pm
Indigo Ballroom BG, Level 2

John P. McGovern Award

John Renner, MD, DFASAM

As the John P. McGovern Award recipient, Dr. John Renner will deliver the 2018 lecture entitled "Addiction Treatment in the 21st Century – Reclaiming Our Roots and Building Bridges"

Dr. Renner is Associate Professor of Psychiatry, Boston University School of Medicine, and Associate Chief of Psychiatry for the VA Boston Healthcare System. In addition to his clinical activities at the VA, he is Associate Director of the Boston University Medical Center General Psychiatry Residency Program and Director of their Addiction Psychiatry Residency. Dr. Renner has written and lectured extensively on the treatment of alcoholism and drug addiction.

The John P. McGovern MD Award recognizes and honors an individual who has made highly meritorious contributions to public policy, treatment, research, or prevention which has increased our understanding of the relationship of addiction and society.

R. Brinkley Smithers Distinguished Scientist Award

Michael E. Charness, MD

To recognize and honor an individual who has made highly meritorious contributions in advancing the scientific understanding of alcoholism, its prevention and treatment.

ASAM Public Policy Award

Jay Butler, MD

To recognize an elected official (federal, state, local) who has effectively advanced public policies that promote the health of Americans, especially persons with addictions; addiction medicine physicians; the education of physicians and medical trainees regarding substance use and addiction; or recognition of the practice of addiction medicine.

ASAM Annual Award

Stuart Gitlow, MD, MPH, MBA, DFAPA, DFASAM

To recognize outstanding contributions to the growth and vitality of our Society, for thoughtful leadership in the field, and for deep understanding of the art and science of addiction medicine, and for expanding the frontiers of the field of addiction medicine and broadening our understanding of the addictive process, through research and innovation.

ASAM Annual Award

Scott Teitelbaum, MD, DFASAM

To recognize outstanding contributions to the growth and vitality of our Society, for thoughtful leadership in the field, and for deep understanding of the art and science of addiction medicine, and for expanding the frontiers of the field of addiction medicine and broadening our understanding of the addictive process, through research and innovation.

ASAM 2018 Media Award - Documentary

Ellen Goosenberg Kent

To recognize a person or entity that improves the public's understanding of addiction, addiction treatment, recovery, or the profession of addiction medicine through the use of a media or publication source.

ASAM Educator of the Year Award

Edwin A. Salsitz, MD, DFASAM

To recognize one educator who has made outstanding contributions to ASAM's addiction medicine education.

2018 Presidential Award

Sharon L. Standcliff, MD, FASAM

To recognize an individual who has exhibited commitment to evidence-based treatment approaches to address the disease of addiction.

ASAM Abstract Award: Best Overall

Benjamin Bearnot, MD

To recognize the primary author of the highest scoring submitted abstract.

ASAM Abstract Award: Resident

David Crabtree, MD

To recognize a poster's primary author who is currently enrolled in a medical residency program.

ASAM Abstract Award: Fellow-In-Training

Elizabeth A. Samuels, MD, MPH

To recognize a poster's primary author who is currently enrolled in a medical fellowship program.

ASAM Abstract Award: Young Investigator

Jessica F. Magidson, PhD

To recognize a poster's primary author who is within five years of the completion of a medical residency or receipt of a doctoral degree.

The ASAM Annual Awards Luncheon

ASAM IS PROUD TO ACKNOWLEDGE THE RECIPIENTS BELOW

Please be sure to congratulate these individuals when you see them at the conference.

2018 Distinguished Fellows

Distinguished Fellows are chosen based upon an outstanding and long sustained demonstration of top-ranking competence in the field of addiction medicine, exceptional professionalism, consummate integrity, demonstrated service, significant contribution, and noted leadership.

Danesh A. Alam, MD, DFASAM
Brent E. Boyett, DO, DMD, DFASAM
Michael R. Delman, MD, FACP, FACC, DFASAM
Catherine R. Friedman, MD, DFASAM
Miriam S. Komaromy, MD, FACP, DFASAM
Karen A. Miotto, MD, DFASAM
Yngvild K. Olsen, MD, MPH, DFASAM
Cara A. Poland, MD, MEd, DFASAM
Michael P. Sprintz, DO, DFASAM
Mishka Terplan, MD, MPH, DFASAM
Matthew A. Torrington, MD, DFASAM
Timothy Wiegand, MD, FACMT, FAACT, DFASAM

2018 Ruth Fox Scholars

Ruth Fox Scholars are physicians-in-training with demonstrated academic excellence, leadership potential, interest in additional addiction medicine education, and a desire to spread this education to other physicians-in-training.

Paxton Bach, MD
Saurabh B. Bhardwaj, MD
Susan Calcaterra, MD, MPH, MSPH, MS
Nicholas Chadi, MD
Nitin Chopra, MD
Natassia Gaznick, MD
Sahib S. Gill, MD
Simeon Kimmel, MD
Glenna Martin, MD
Shawn McNeil, MD
Kenneth Morford, MD
Ashanda Powell, MD
Payel Roy, MD
Robert Rymowicz, BSc
Ryan B. Schmidt, MD
Hannah Snyder, MD

2018 NIDA Young Investigator Travel Award Winners

The NIDA Young Investigator Travel Award encourages candidates in their second year of an addiction medicine fellowship, which is a research year, or currently working towards a PhD in an addiction-related research area, to apply for this award. The awards focus is to provide a training experience for young investigators in the area of drug addiction and infectious disease research, through conference fellowships at The ASAM 49th Annual Conference.

Alexander Bazazi, PhD
Huiqiong Deng, MD, PhD
Karolina Kozak, MD
Heidi S. Melbostad, MS
Steven L. Proctor, PhD
Noah Robinson, MD
Anna Scialli, MD
Sebastian Tong, MD, MPH

Lamia Haque, MD, MPH, the 2017 Young Investigator Award Winner, and Michael Fingerhood, MD, FACP, DFASAM.

Program Details | Saturday, April 14

11:30 am – 12:30 pm

Focus Session

Using Public Health Datasets to Understand the Opioid Overdose Crisis

Indigo 204, Level 2

Ali B. Abbasi, MSc, MPhil; Mai Tuyet Pho, MD, MPH; Elizabeth M. Salisbury-Afshar, MD, MPH, FAAFP, FASAM, FACPM; Alexander Y. Walley, MD, MSc, FASAM

To understand the changing opioid epidemic, health agencies and researchers are increasingly utilizing large datasets to shape public health policy. In this focus session, addiction specialists, academic researchers and public health experts working in two states, Illinois and Massachusetts, will highlight how public health data analysis can inform clinical and policy recommendations. Presenters will introduce participants to common datasets including vital records, syndromic surveillance, emergency medical services, and the prescription monitoring program. Presenters will discuss examples of recent analyses and review the advantages and limitations of public health data. Participants are invited to discuss the implications for clinical research, practice, resource allocation, and advocacy in their settings.

12:30 pm – 2:30 pm

The ASAM Annual Awards Luncheon (Ticketed Event)

Indigo Ballroom BG, Level 2

See page 28 and 29 for more information.

1:00 pm – 2:00 pm

Bring Your Own Lunch Networking Event

Indigo Terrace, Level 2

We encourage you to attend The ASAM Annual Awards Luncheon! However, if you can't attend, join us for an informal lunch chat with colleagues. Purchase your own lunch, engage in interesting conversation, and share stories with peers—discuss whatever is on your mind.

2:45 pm – 3:45 pm

Workshop Session

Collateral Damage: Pregnant Women with Interruption of MAT Due to Incarceration

Indigo Ballroom A, Level 2

Kaylin A. Klie, MD, MA, FASAM; Michelle Gaffaney, PA-C; Amanda M. Langer, LCSW, CACII

Utilizing three case studies of patients from real clinical practices, presenters will discuss the unique challenges facing pregnant, opioid-dependent women who become incarcerated. Frequently, this incarceration leads to interruption of medication-assisted treatment, which can have unintended and harmful effects in the lives of women and their families. Presenters will discuss a model for provision of induction and maintenance of MAT for pregnant, opioid-dependent women who are incarcerated, and hope to inspire interest and motivation for attendees to work to increase cooperation and collaboration between the correctional system and MAT providers in their areas.

Focus Session

Fentanyl and Analogs, Oh My: Their Impact on Patients and Public Health

Indigo Ballroom E, Level 2

Evan S. Schwarz, MD, FASAM; JoAn Laes, MD, FASAM; Lewis S. Nelson, MD

The pharmacokinetics of novel fentanyl analogs (eg, their duration of effect or the amount of naloxone required for reversal) is not well described in published literature. While little is available in peer-reviewed literature, much is written and sensationalized in the lay press regarding purported toxicity and symptoms inconsistent with opioid overdoses. As such, it is difficult to understand the potential effects on

patients who are exposed to these opioids. Given the prevalence and morbidity of these agents, testing patients for fentanyl has increased relevance, and rapid immunoassays are under development. Some testing has been found to be beneficial to public health and law enforcement officials but clinical benefit is still unclear. This session will discuss what is known about these novel opioids and their impact on both clinical care and public health concerns

Workshop Session

Lifelong Learning: Review of Articles for Addiction Medicine Tmoc Part 2

Aqua Salon ABC, Level 3

Michael Fingerhood, MD, FACP, FASAM; Gavin Bart, MD, PhD, FACP, DFASAM; Lia Bennett, MPH; Alexander Y. Walley, MD, MSc, FASAM

Transitional Maintenance of Certification (Tmoc) is a fundamental part of addiction medicine certification for current ABAM Diplomates, and it can be important for patient care as well as professional development. Tmoc Part 2 (also known as Lifelong Learning and Self-Assessment) involves reading medical literature and answering questions based on articles, which is not always easy, especially for new or busy addiction medicine certified physicians. This workshop will help meet Tmoc Part 2 requirements for attendees who are certified in addiction medicine. Attendees who are not certified in addiction medicine can still learn about recent research from across the spectrum of the field of addiction medicine as information will be discussed in terms of clinical relevance to patient care.

Focus Session

Navigating the Minefield of Substance Use Testing: Understanding Your Patient's Report

Indigo Ballroom DH, Level 2

Jill S. Warrington, MD, PhD

Appropriate use of urine drug testing in patients with substance use disorders relies upon the provider's ability to interpret the test results. In an interactive format, this session is designed to highlight common challenges in urine drug test interpretation. Presenters will review case studies representing frequently misunderstood areas of testing for patients with substance use disorders. By the end of the session, participants will understand the common methods for urine drug testing and will be more versed in interpreting their patients' test results.

Workshop Session

Peering Through the Smoke: Update on Adolescent and Young Adult Tobacco Use

Sapphire Ballroom IM, Level 4

Nicholas Chadi, MD; Karen Leslie, MD, MEd; Trisha Tulloch, MD, MSc
Behind the steady decrease in traditional cigarette smoking rates in youth hides a new pattern of tobacco and nicotine addiction. E-cigarettes, hookahs, and chewable forms of tobacco are increasingly popular among today's youth. Less studied and unequally regulated when compared with traditional cigarettes, these alternate tobacco forms present a challenge and an opportunity for clinicians and policymakers. This session will offer a comprehensive perspective on adolescent and young adult smoking by exploring some of tobacco's newer and alternate forms while highlighting important associations with co-morbid substance use and medical and mental health conditions. Building on the presenters' clinical experience, this interactive workshop will allow participants to develop new skills and approaches for tobacco prevention and cessation with youth in a rapidly evolving context.

Focus Session

Primary Care Based Recovery Coaching and SUD Pharmacotherapy Reduces Hospital Utilization

Aqua Salon DEF, Level 3

Sarah Wakeman, MD, FASAM; Nancy Rigotti, MD; Yuchiao Chang, PhD; Joshua Metlay, MD, PhD

This session will review the implementation of primary care based recovery coaches coupled with integrated addiction treatment across four practices affiliated with a large academic medical center and the effect on acute care utilization for patients with substance use disorder. Presenters integrated treatment into primary care practices with the formation of multi-disciplinary teams of local champions, access to pharmacotherapy with buprenorphine and extended-release naltrexone, counseling, and recovery coaching. Presenters then evaluated the impact of this intervention on hospitalization and emergency department utilization by matching patients in intervention practices with similar patients in control practices and comparing utilization during the same nine calendar months before and after the intervention.

Focus Session

Reducing Alcohol-Related Emergency Visits: An Innovative Model of Care to Improve Outcomes

Indigo 204, Level 4

Kim Corace, PhD, CPsych; Melanie Willows, MD

Alcohol use is a common cause of Emergency Department (ED) visits and accounts for a large proportion of 30-day ED re-visits. We developed and evaluated an innovative rapid access medical withdrawal management service direct from the ED that demonstrated reduced alcohol-related ED utilization and increased access to care for people with alcohol problems. Our Alcohol Medical Intervention Clinic (AMIC) provides collaborative, inter-agency care with hospital, community, and primary care providers. Successes and challenges in the creation of this novel service will be discussed, including the importance of program evaluation to guide service delivery, demonstrate outcomes, and inform funding proposals. Attendees will be able to identify opportunities to develop a similar service to manage alcohol problems in their region.

3:45 pm – 4:00 pm

Refreshment Break & Networking with Colleagues

Indigo West Foyer, Level 2

4:00 pm – 5:30 pm

Focus Session

Bridging Gaps: Developing Immediate Access SUD Care in the Face of Crisis

Indigo 204, Level 2

Laura Kehoe, MD, MPH, FASAM; Sarah Wakeman, MD, FASAM

The Massachusetts General Hospital Bridge clinic is an immediate access, low threshold transitional drop in clinic. They offer medication management, and optional peer-support and psycho-education groups to individuals unable to access care in the community. The primary goal is to engage people by “meeting them where they are,” and to initiate pharmacotherapy, followed by stabilization and eventually linkage to community-based treatment. This clinic also serves in a complementary role to an inpatient addiction consult team, the emergency department, the obstetrics department, as well as all outpatient departments, and provides a “consult and return model” for complex patients in the MGH primary care clinics who need stabilization.

Symposium Session

Medications for Opioid Use Disorder: A Toolkit for Improving Practice (TIP)

Indigo Ballroom E, Level 2

Robert P. Schwartz, MD; Michelle R. Lofwall, MD, DFASAM; Anthony Campbell, RPH, DO, CDR, USPHS

Sponsored by: Substance Abuse and Mental Health Services Administration (SAMHSA)

SAMHSA initiated development of a Toolkit for Improving Practice (TIP) to respond to the opioid crisis. Through this publication, SAMHSA aims to provide up-to-date information about using medications to treat Opioid Use Disorder (OUD) in order to expand the use of effective treatments and to reduce the negative consequences of OUD. This five-part TIP reviews the use of buprenorphine, methadone, and naltrexone and other strategies and services that support remission and recovery. This session will review the major contents of the TIP and will provide an opportunity for dialogue with the presenters.

Focus Session

New Approaches Using Contingency Management to Reduce Substance Use in the CJS

Indigo Ballroom DH, Level 2

Robert L. DuPont, MD, DFASAM; Beau Kilmer, PhD; Keith Humphreys, PhD

On a typical day in 2015, over 4.7 million adults were under community supervision and 2.2 million were incarcerated. With so many individuals passing through the criminal justice system having a substance use problem, there are many millions of opportunities each year to reduce problematic substance use and promote public health and safety, almost all of which are missed. What should police officers, judges, and probation officers do when they believe reducing the substance use of individuals they encounter would benefit the user and/or society more generally? This workshop, based on a chapter in the forthcoming ASAM textbook, will highlight innovative ideas for reducing the substance use of individuals who are under criminal justice supervision and review evidence on program effectiveness.

Focus Session

Psychiatry for Non-Psychiatrists: The DSM-5 Express

Indigo Ballroom A, Level 2

Petros Levounis, MD, MA, DFASAM

Addiction specialists these days do much more than treating addiction. Many patients suffer from psychiatric or medical co-morbidities, which addiction specialists are called to manage even when they fall outside of their area of expertise. At the very least, addiction specialists are expected to appreciate and assess for such co-morbidities. This session serves as an introduction to psychiatry for non-psychiatrists. It covers the fundamentals of psychiatric diagnosis through the lens of the DSM-5. Presenters will review the twenty DSM-5 chapters by elucidating their most salient features. Presenters will also briefly cover treatments currently used to manage psychiatric conditions—other than the substance use disorders and the behavioral addictions.

Workshop Session

Recovery Frequently Begins with Twelve-Step Meetings—Attend One

Sapphire Ballroom IM, Level 4

Melvin Pohl, MD, DFASAM; Paul H. Earley, MD, DFASAM

An expanding body of research validates the efficacy of 12-step programs in assisting recovery, decreasing the financial burden of substance use disorders and improving lives. Several research-validated manualized techniques assist the clinician in effectively integrating Alcoholics Anonymous (AA) and its sister organizations into basic addiction care. This session will provide a hands-on understanding of the AA process. The leaders will create an inner and outer circle within the room; the audience sits in the outer circle observing a typical 12-step meeting being held in the inner circle. The workshop leaders will employ stop/start techniques derived from experiential therapy to process the unique, non-confrontational method of rendering advice within a meeting. More importantly, participants will witness subtle didactic, supportive and transformational elements that occur in a typical 12-step meeting.

Program Details | Saturday, April 14 - Sunday, April 15

4:00 pm – 5:30 pm

Workshop Session

Treating Youth with Opioid Addiction: Cases and Controversies

Aqua Salon DEF, Level 3

Marc Fishman, MD, DFASAM; Ann Bruner, MD; Bikash Sharma, MD; Hoa Vo, PhD

This workshop will feature an interactive, case-based format. Workshop leaders will present 4-5 cases with background and treatment course, each punctuated by “what would you do next...” management questions for guided discussion at several pivotal decision points in the course. The case discussions will cover a range of questions, including: developmentally specific approaches to treatment of adolescents and young adults with OUDs; use of relapse prevention medication (MAT) in youth; the role of families, when and how to involve them; confidentiality; use of various levels of care; the impact of other substance use disorders (primarily cannabis and alcohol); delivery models for medications and psychosocial treatment modalities; and others.

Focus Session

Unhealthy Alcohol Use: Update on the Forgotten Epidemic

Aqua Salon ABC, Level 3

Richard Saitz, MD, MPH, DFASAM, FACP; Darius A. Rastegar, MD, FASAM

While the opioid epidemic has attracted justifiable attention in recent years, clinicians need to remember that alcohol in many ways remains a bigger problem. Data on the prevalence and impact of alcohol use on health will be reviewed, followed by a discussion of approaches to identification and assessment. This will be followed by a review of the management of alcohol withdrawal and the evidence for the use of pharmacotherapy in the treatment of alcohol use disorder. Finally, integrated care management for alcohol use disorder will be discussed.

5:30 pm – 6:30 pm

Meet & Treat – Frozen Yogurt

Promenade West Foyer, Level 1

Meet current friends and make new connections while enjoying tasty frozen yogurt with colleagues. Sign-up on-site. Frozen yogurt is at your own cost—not covered by ASAM.

Primary Care & Family Medicine Work Group Meeting

Indigo 206, Level 2

6:00 pm – 7:30 pm

ASAM Ruth Fox Reception (By Invitation Only)

Elevation Room, Level 30

8:00 pm – 9:00 pm

Quality Improvement Council Meeting

Indigo 206, Level 2

8:00 pm – 10:00 pm

Special Session

A Special Movie Event: HBO/NIAAA Risky Drinking Documentary Screening & Discussion

Indigo Ballroom BG, Level 2

George F. Koob, PhD; Deidra Y. Roach, MD; Ellen Goosenberg-Kent; Penny S. Mills, MBA

Attend a special screening and discussion of the HBO (with support from NIAAA) documentary Risky Drinking, a no-holds-barred look at alcohol use disorder through the intimate stories of four people whose drinking dramatically affects their relationships. Risky Drinking takes a case-study look at the hazards of alcohol use and details the ways the medical community views and treats “risky” drinkers. After the film, join George F. Koob, PhD, Director of NIAAA; film producer, Oscar and Emmy winner, and ASAM Media Award winner Ellen Goosenberg-Kent; and

film participant Deidra Roach, MD, Medical Project Officer at NIAAA; for conversation about how to identify risky drinking and alternatives to a one-size-fits-all approach for treating alcohol use disorder. Popcorn and refreshments will be provided.

9:30 pm – 10:30 pm

Mutual Help

Sapphire 400B, Level 4

SUNDAY, APRIL 15, 2018

7:00 am – 8:00 am

Continental Breakfast & Networking with Colleagues

Indigo West Foyer, Level 2

8:30 am – 10:00 am

Focus Session

Harm Reduction for Patients Prescribed Buprenorphine: Is it Possible?

Indigo Ballroom CG, Level 2

Laura Kehoe, MD, MPH, FASAM

Despite many efforts, the substance use disorder treatment gap remains and the opioid overdose epidemic continues to soar. The landscape of the opioid epidemic has changed even more dramatically with fentanyl and carfentanyl, requiring more readily available care, access to life saving medications, and flexible care models to help keep people engaged in care and save their lives. Presenters will review the definition and background of harm reduction while demonstrating that it is congruent with the management of patients with other chronic relapsing illnesses. By reviewing case examples, participants will learn how to engage and lower risks for patients while fostering a relationship of trust. Participants will have ample opportunity to review their own cases and questions.

Workshop Session

Management of Pregnant/Parenting Women With Opioid Use Disorder and Their Infants

Indigo Ballroom BF, Level 2

Hendree Jones, PhD; Diana Coffa, MD; Charles W. Schaubberger, MD; Anthony Campbell, MPH, DO, CDR, USPHS

This workshop will present the publication Clinical Guidance for Treating Pregnant and Parenting Women With Opioid Use Disorder (OUD) and Their Infants – a comprehensive Clinical Guide on managing optimal OUD care and treatment developed by the Substance Abuse and Mental Health Services Administration (SAMHSA). This Guide meets an urgent need among healthcare professionals who treat women with OUD and children exposed to substances by providing reliable information that can be applied in clinical practices to achieve positive outcomes for both mother and infant. It contains an introduction to the guide and factsheets that include clinical scenarios, clinical action steps, supporting evidence, clinical considerations, and web resources.

Symposium Session

Marijuana Legalization and Addiction Medicine: Global Perspectives

Indigo Ballroom DH, Level 2

Marc Galanter, MD, DFASAM; Jag Khalsa, MS, PhD; Gregory Bunt, MD, FASAM, FISAM; Kevin Sabet, PhD; Susan R.B. Weiss, PhD

Co-Sponsored by: National Institute on Drug Abuse (NIDA) and International Society of Addiction Medicine (ISAM)

Marijuana is an illegal drug in most countries around the globe, however efforts to legalize marijuana in a number of countries are gaining momentum. Addiction specialists are consequently more involved in public policy debates on the subject. This symposium will provide an overview of global developments pertinent to marijuana legalization and decriminalization efforts and the central role of addiction physicians in the respective public policies. The increasing use and abuse of marijuana around the globe raises questions about the impact of this substance on communities, and the role of addiction physicians in influencing public policies. Questions about the safety, toxicity, addictive potential, gateway effects of marijuana are now being fiercely debated, as states in the USA are legalizing marijuana.

Workshop Session

Teaching Substance Use Disorders to Millennial Learners

Indigo Ballroom AE, Level 2

Devin Oller, MD; Michael Bierer, MD, MPH

Using as a model the new Substance Use Disorders Theme Block from the MGH Internal Medicine residency, this workshop seeks to spark discussion among educators about best practices for the creation and implementation of new SUD-focused curricula for millennial learners. Through group discussions, video review of sessions, and microskills teaching, facilitators will explore how educators can expand the diversity of didactic formats, integrate buprenorphine waiver training, and include peer-developed and peer-delivered content in their SUD curricula. Throughout the session, participants will be exposed to different ways of gathering real-time and actionable feedback from residents.

10:00 am – 10:15 am

Refreshment Break & Networking with Colleagues

Indigo West Foyer, Level 2

10:15 am – 11:45 am

Focus Session

Addiction & MH Conditions in Healthcare Providers: Eval, Tx & Legal Considerations

Indigo Ballroom CG, Level 2

Matthew Goldenberg, DO; Karen A. Miotto, MD, DFASAM; Greg Skipper, MD, DFASAM; Kevin D. Cauley, JD

This workshop will explore the current healthcare environment and the risk factors that physicians face at a time when physician burnout and suicide rates are at their highest levels. Presenters will discuss the process of intervention and what to do when a colleague, staff member, or resident/medical student is suspected of being impaired. Presenters will address the process of evaluating a physician from a multi-disciplinary approach, the steps taken when a healthcare provider needs treatment, and specific aspects and details of treatment. Additionally, presenters will review the process of ongoing monitoring to ensure the healthcare provider is safe to return to work and continue practicing after receiving treatment. Finally, legal consideration and concerns will be discussed and best practices will be provided.

Workshop Session

Addressing Complex Issues in Buprenorphine Prescribing: a Workshop

Indigo Ballroom BF, Level 2

Timothy J. Wiegand, MD, FACMT, FAACP, DFASAM; Norm Wetterau, MD, FAAP, DFASAM

In this workshop, participants will have a chance to discuss challenging cases and complex issues in the use of buprenorphine. Some of the issues that will be discussed include running out of medication early and encounters with patients who report lost or stolen medications. What does one do when the urine has been adulterated or does not show any buprenorphine? How should one optimally approach patients that are using other substances such as alcohol, cocaine, marijuana and benzodiazepines when prescribed buprenorphine? What about someone on high dose buprenorphine or someone you suspect may be diverting? These issues will be discussed with active audience participation.

Workshop Session

Integrating Addiction Treatment into General Medical Health Systems

Indigo Ballroom AE, Level 2

Brian Hurley, MD, MBA, DFASAM; Stephen A. Wyatt, DO, FAOAAM, DFASAM; R. Corey Waller, MD, MS, FACEP, DFASAM

General medical settings are opportune for the identification and initiation of addiction treatment. There is emerging evidence that collaborative care models have applicability to opioid and alcohol use disorders. The implementation of an integrated system of care may overcome the barriers to the effective application of chronic disease management for addictive disorders. The existing healthcare system has significant fragmentation, overall access problems, and specific inaccessibility to highly effective addiction treatments. Building an integrated system of care within existing healthcare enterprises requires addressing these factors. This session will review the evidence of collaborative care and other integrated care models for addiction medicine and participants will be asked to identify key opportunities for collaborative care in their institutional settings.

Focus Session

Opioid Use Disorders and the Americans with Disabilities Act: Eliminating Discriminatory Barriers to Treatment and Recovery

Indigo Ballroom DH, Level 2

Elizabeth Westfall, JD; H. Westley Clark, MD, JD, MPH, DFASAM An attorney from the Disability Rights Section in the U.S. Department of Justice's Civil Rights Division will present on "Opioid Use Disorders and the Americans with Disabilities Act: Eliminating Discriminatory Barriers to Treatment and Recovery." Among the topics discussed will be the Civil Rights Division's Response to the Opioid Epidemic; an Americans with Disabilities Act (ADA) overview; the ADA's application to and protections for people with Substance Use Disorders and Opioid Use Disorders; and how to file a complaint about discrimination with the Department.

11:45 am

Official Closing of The ASAM 49th Annual Conference

Get the FREE ASAM Events App!

ASAM is pleased to announce that the NEW ASAM Events is now available for download on your mobile devices!

Use the ASAM Events App to:

- View slides & posters
- Take notes during sessions
- Connect with attendees & presenters
- Access the most up-to-date conference info
- Mark your favorite interesting sessions

Get Started Now!

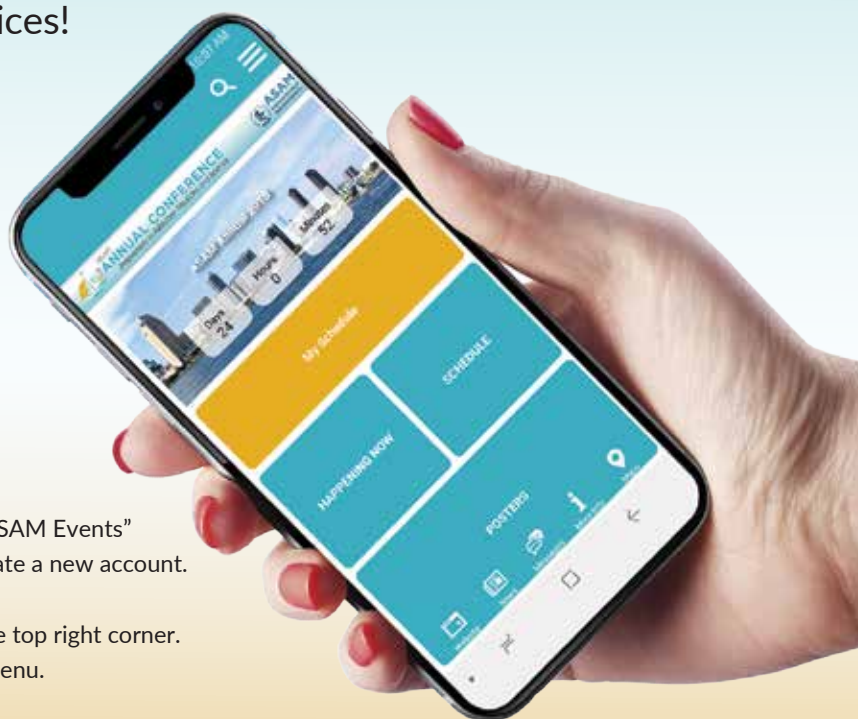

STEP 1: Go to the iTunes App Store or Google Play and search for "ASAM Events"

STEP 2: Click on "The ASAM 49th Annual Conference 2018" and create a new account.

STEP 3: View the schedule, slides and posters, take notes, and more.

STEP 4: To sync with updated conference info, locate the menu in the top right corner.
Click "Refresh Schedule" in the "Your Event" section of the menu.

Not a Member?

Join During Conference and Receive:

- \$50 off 2018 calendar year membership dues
- \$50 gift certificate to the ASAM e-Learning Center
- Raffle entry for free registration to The ASAM 50th Annual Conference, April 4-7, 2019, in Orlando, FL

Benefits Include:

Access to the *Journal of Addiction Medicine*

Published six times per year, the *Journal of Addiction Medicine* is the official journal of the American Society of Addiction Medicine.

Shaping & Contributing to the Field

ASAM advocates for policies that promote access to high-quality treatment and recovery support services for the millions of Americans who have a substance use disorder.

Fellow Designation (FASAM)

ASAM's Fellow designation gives recognition to and raises awareness of ASAM members who are board certified addiction specialists.

Access to the ASAM Career Center

The ASAM Career Center offers job seekers free and confidential resume posting, automated weekly email notification of new job listings, and the ability to save jobs for later review.

CME - Member Exclusive Rates

ASAM has been an ACCME-accredited provider of continuing education since 1977, and is a recognized leader in the planning and presentation of educational events in the addiction field. Members receive exclusive discounts on live and online ASAM courses and published texts.

Networking and Local Chapters

ASAM State Chapters provide networking, service, and professional learning opportunities for our members across the nation. Local events, courses and meetings provide opportunities to network, and develop lifelong professional relationships.

ASAM American Society of
Addiction Medicine

Visit ASAM's Booth #723 in the exhibit hall for ASAM resources, membership & more!

Exhibitors

Abbott Diagnostics 420

9417 Brodie Lane
Austin, TX 78748
(512) 610-9955
www.aleretoxicology.com
Alere is now part of Abbott's Diagnostics family of businesses. We are committed to delivering exceptional drug testing solutions—thus helping organizations detect abuse of drugs and alcohol. Our laboratory services and rapid screening solutions allow you to make fast and informed decisions about drug abuse in the workplace.

Acadia Healthcare 319

6100 Tower Circle
Franklin, TN 37067
(615) 861-7356
www.physiciancareerline.com
Acadia is a provider of inpatient behavioral healthcare services. Acadia operates a network of 585 behavioral healthcare facilities with over 17,100 beds in 39 states, the United Kingdom and Puerto Rico. Acadia provides psychiatric and chemical dependency services to its patients in a variety of settings, including inpatient psychiatric hospitals, residential treatment centers, outpatient clinics and therapeutic school-based programs.

Acadiana Addiction Center 315

156 Choctaw Rd
Sunset, LA 70584
(337) 233-1111
www.acadianaaddiction.com
Acadiana Addiction Center is a private residential treatment for adults struggling with alcoholism, drug abuse and other co-occurring disorders. Impaired Professionals Program. Lifetime aftercare and family care follow up services.

Adapt Pharma 610

100 Matsonford Road Building 4, Suite 201
Radnor, PA 19087
(844) 232-7811
www.adaptpharma.com
Adapt Pharma, makers of NARCAN® Nasal Spray, is an innovative small business focused on developing cutting-edge treatments for patients with special medical conditions.

Addiction Labs 808

500 Wilson Pike Suite 360
Brentwood, TN 37027
(615) 678-5973
www.addictionlabs.com
Addiction Labs, the world-leader in fentanyl testing, is a high technology that caters to the unique testing and monitoring challenges of addiction treatment.

Adelante Recovery Center 40

610 Newport Center Dr. Suite 230
Newport Beach, CA 92660
(714) 812-8606
www.adelanterecovery.com
Adelante Recovery Center is a luxury residential treatment facility offering treatment to those suffering from addiction. Our program offers a holistic approach combined with some 12-step program. Our treatment plans have been designed to help our clients on the road to recovery. We believe in treating the whole body, mind and spirit.

- ___ **WS** – Forgiveness and Addiction: Addressing Resentment, Guilt, and Shame in Recovery (1.5 CME)
- ___ **FS** – Improving Treatment for Opioid Use Disorders: A System-Wide Approach (1.5 CME)
- ___ **SS** – Leveraging Technologies and EHR in SUD Treatment: NIDA CTN Research Initiatives (1.5 CME)
- ___ **WS** – Motivational Interviewing: Brushing up on the Basics (1.5 CME)
- ___ **WS** – SUD Patients and Pain: The Multi-Faceted and Ever Changing Clinical Challenges (1.5 CME)
- ___ **General Session** – National Perspectives Plenary (1 CME)

SATURDAY, APRIL 14, 2018

Morning Sessions

- ___ **General Session** – Policy Plenary: State Policy Approaches to Addiction Medicine Access and Quality (1.5 CME)
- ___ **Scientific Poster Sessions** (1.5 CME)
- ___ **WS** – Addiction Medical Management with Patients that Use Cannabis (1 CME)
- ___ **FS** – Effectiveness of XR-Naltrexone vs. Buprenorphine: Results of Two Randomized Trials (1 CME)

- ___ **FS** – From Overdose to Engagement: Working with First Responders and Emergency Departments (1 CME)
- ___ **FS** – Healthcare & Drug Court Partnerships (1 CME)
- ___ **FS** – Red Light: Reducing the Harm of Sex Work in SUD Clients (1 CME)
- ___ **WS** – Transitions in Care and Linkage to Treatment from Acute Care Settings (1 CME)
- ___ **FS** – Using Public Health Datasets to Understand the Opioid Overdose Crisis (1 CME)

Afternoon Sessions

- ___ **WS** – Collateral Damage: Pregnant Women with Interruption of MAT Due to Incarceration (1 CME)
- ___ **FS** – Fentanyl and Analogs, Oh My: Their Impact on Patients and Public Health (1 CME)
- ___ **WS** – Lifelong Learning: Review of Articles for Addiction Medicine Tmoc Part 2 (1 CME)
- ___ **FS** – Navigating the Minefield of Substance Use Testing: Understanding Your Patient's Report (1 CME)
- ___ **WS** – Peering Through the Smoke: Update on Adolescent and Young Adult Tobacco Use (1 CME)
- ___ **FS** – Primary Care Based Recovery Coaching and SUD Pharmacotherapy Reduces Hospital Utilization (1 CME)
- ___ **FS** – Reducing Alcohol-Related Emergency Visits: An Innovative Model of Care to Improve Outcomes (1 CME)
- ___ **FS** – Bridging Gaps: Developing Immediate Access SUD Care in the Face of Crisis (1.5 CME)
- ___ **SS** – Medications for Opioid Use Disorder: A Toolkit for Improving Practice (TIP) (1.5 CME)
- ___ **FS** – New Approaches Using Contingency Management to Reduce Substance Use in the CJS (1.5 CME)
- ___ **FS** – Psychiatry for Non-Psychiatrists: The DSM-5 Express (1.5 CME)
- ___ **WS** – Recovery Frequently Begins with Twelve-Step Meetings - Attend One (1.5 CME)
- ___ **WS** – Treating Youth with Opioid Addiction: Cases and Controversies (1.5 CME)
- ___ **FS** – Unhealthy Alcohol Use: Update on the Forgotten Epidemic (1.5 CME)
- ___ **Special Session** – A Special Movie Event: HBO/NIAAA Risky Drinking Documentary Screening & Discussion (2 CME)

SUNDAY, APRIL 15, 2018

Morning Sessions

- ___ **FS** – Harm Reduction for Patients Prescribed Buprenorphine: Is it Possible? (1.5 CME)
- ___ **WS** – Management of Pregnant/Parenting Women With Opioid Use Disorder and Their Infants (1.5 CME)
- ___ **SS** – Marijuana Legalization and Addiction Medicine: Global Perspectives (1.5 CME)
- ___ **WS** – Teaching Substance Use Disorders to Millennial Learners (1.5 CME)
- ___ **FS** – Addiction & MH Conditions in Healthcare Providers: Eval, Tx & Legal Considerations (1.5 CME)
- ___ **WS** – Addressing Complex Issues in Buprenorphine Prescribing: a Workshop (1.5 CME)
- ___ **WS** – Integrating Addiction Treatment into General Medical Health Systems (1.5 CME)
- ___ **FS** – Opioid Use Disorders and the Americans with Disabilities Act: Eliminating Discriminatory Barriers to Treatment and Recovery (1.5 CME)

Continuing Medical Education Credits (CME)

ASAM has been awarded the highest level of Accreditation with Commendation by the Accreditation Council for Continuing Medical Education (ACCME) as a provider of continuing medical education (CME) for physicians.

Accreditation in the ACCME System seeks to assure the medical community and the public that ASAM delivers education that is relevant to clinicians' needs, evidence-based, evaluated for its effectiveness, and independent of commercial influence.

Accreditation Council for Continuing Medical Education (ACCME)

The American Society of Addiction Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

ASAM has been awarded the highest level of Accreditation with Commendation by ACCME as a provider of CME.

The ASAM 49th Annual Conference – *Innovations in Addiction Medicine and Science*

The American Society of Addiction Medicine designates this live activity for a maximum of **22.25 AMA PRA Category 1 Credit(s)[™]**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The maximum number above includes attendance to the Off-Site Learning Session. Non-attendees of the Off-Site Learning Session (activity) may receive a maximum of **20.25 AMA PRA Category 1 Credit(s)[™]**.

The ASAM Pain and Addiction: Common Threads Course XIX

The American Society of Addiction Medicine designates this live activity for a maximum of **8 AMA PRA Category 1 Credit(s)[™]**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The ASAM Motivational Interviewing Workshop

The American Society of Addiction Medicine designates this live activity for a maximum of **8 AMA PRA Category 1 Credit(s)[™]**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ABPM Maintenance of Certification (MOC) for The ASAM 49th Annual Conference and Pre-Conference Activities

The American Board of Preventive Medicine (ABPM) has approved this activity for a maximum of 28 LLSA credits towards ABPM MOC Part II requirements.

ABAM Transitional Maintenance of Certification Program (Tmoc)

This course has been approved by the American Board of Addiction Medicine (ABAM). Physicians enrolled in the ABAM Transitional Maintenance of Certification (Tmoc) Program can apply a maximum of **22.25 AMA PRA Category 1 Credit(s)[™]** for completing the The ASAM 49th Annual Conference.

American Psychological Association (APA)

The American Society of Addiction Medicine (ASAM's) Continuing Medical Education (CME) has been approved for renewal of certification by the APA College of Professional Psychology. ASAM CME credits may be applied toward the APA's "Certificate in Proficiency in the Treatment of Alcohol and Other Psychoactive Substance Use Disorders."

American Academy of Family Physicians (AAFP)

This Live activity, The American Society of Addiction Medicine (ASAM) 49th Annual Conference and Pre-Conference Activities, with a beginning date of 04/12/2018, has been reviewed and is acceptable for up to 25.50 Prescribed credit(s) by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Continuing Education Credits (CEUs)

Non-physician participants will receive a certificate of attendance upon completion of the activity and an online evaluation confirming their participation. Participants should submit his/her certificate of attendance to their professional organization/institute.

CME Committee, Program Planning Committee, and Faculty Disclosure Information

In accordance with the disclosure policies of the American Society of Addiction Medicine (ASAM) and the Accreditation Council for Continuing Medical Education (ACCME), the effort is made to ensure balance, independence, objectivity, and scientific rigor in all educational activities. These policies include resolving all conflicts of interest between the CME Committee, Program Planning Committee, and Faculty, and commercial interests that might otherwise compromise the goal and educational integrity of this activity. All Program Planning Committee members and Faculty participating in the activity have disclosed all relevant financial relationships with commercial interests. The ASAM CME Committee has reviewed these disclosures and determined that the Program Planning Committee and Faculty relationships are not inappropriate in the context of their respective presentations and are not inconsistent with the educational goals and integrity of the activity.

THE ASAM

Treatment of Opioid Use Disorder Course

Includes Waiver Qualifying Requirements

This 8-hour course covers treating opioid use disorder using case-based learning and evidence-based practices, and meets waiver qualifying requirements.

The course is approved for DATA 2000 and CARA and meets requirements for physicians, nurse practitioners and physician assistants. ASAM, in collaboration with AANP and AAPA, also provides the full 24 hour training for nurse practitioners and physician assistants.

This course provides the highest quality evidence-based practices:

- ✓ Multiple formats available (*online, live, and blended*)
- ✓ National expert faculty
- ✓ Online portion narrated
- ✓ Case-based, interactive learning

e-LEARNING CENTER & Claiming CME

Claim your CME anytime between the end of the conference and April 2021!

Full Annual Conference and Pre-Conference Attendees:

1. After logging in, select “Dashboard” from the right-hand menu (on mobile devices, you will find “Dashboard” by clicking the three horizontal lines in the header).
2. Locate “Packages” and select the name on the Conference or Pre-Conference Course/Workshop.
3. Click “Content.”
4. Select “Evaluation and Certificate,” then click “View.”
5. Find the box that says “Evaluation” and click the blue button that says, “Fill out Survey.”
6. After you have completed the survey, select the box labeled “Live Credit – Attended In-Person” and click the blue button that says, “Claim Medical Credits.”
7. Select “Physician – Live” or “Non-Physician – Live” and the number of hours you attended, then click “Submit.”
8. Print out your certificate or save it to your device.

Daily Annual Conference Attendees will not claim CME in the e-LC and will receive evaluation and CME information via email by April 30, 2018.

WATCHING SESSIONS ON-DEMAND:

Relive the conference! Full conference registrants of The ASAM 49th Annual Conference FREE access to sessions on-demand in the ASAM e-Learning Center within 30 days of the conference.

Daily registrants and others not registered for the full ASAM 49th Annual Conference may purchase sessions on-demand on the ASAM e-Learning Center 30 days after the conference. The ASAM Motivational Interviewing Workshop will NOT be recorded or available for online purchase.

Helpful Tips

Getting to the e-LC:

Go to: eLearning.ASAM.org or click "eLearning Center" in the Conference App

Logging-in:

IMPROVING PATIENTS OUTCOMES AND SYSTEM EFFICIENCIES

► The ASAM Criteria

- Most intensively studied set of addiction placement criteria
- Ensures less morbidity, better client functioning, and more efficient service utilization than mismatched treatment
- Most used set of guidelines that are required in the majority of US states

Interested in volunteering to advance adoption of The ASAM Criteria?

Please join David Mee-Lee, MD, FASAM, to learn more about the opportunities available on Friday, April 13 at 6:15 pm in Aqua Salon ABC, Level 3.

► CONTINUUM Product Line

continuum
THE ASAM CRITERIA DECISION ENGINE

- Reduces no-shows to initial care by 25% and equates to increased revenue
- Reduces staff's Utilization Review burden, improves payment authorization, and saves patient worry
- Receives high marks for: ease of use, a rapid learning curve, improvement in the clinical assessment process and faster and higher likelihood managed care reimbursement – with both public and commercial payers

triage

- A 10-minute standardized referral assessment completed by phone or in person
- Increases the likelihood of patients' referral to the correct ASAM Level of Care
- Built from an easily synchronized with the research-validated CONTINUUM™ comprehensive assessment tool
